

DO YOU:

- ◆ Enjoy the OUTDOORS?
- ◆ Derive satisfaction from helping others?
- ◆ Enjoy being part of a team?

STAR 1 SEARCH AND RESCUE may be looking for YOU!

STAR 1 is a professional search team comprised entirely of volunteers. We provide nationally certified search resources including ground search technicians, K9 teams and search management assistance. Our services are provided at no charge.

DO YOU HAVE THE RIGHT STUFF? Before you quit your day job you should know that there is really nothing glamorous about search and rescue work, and no paycheck. We often search at night and in weather and temperatures that keep most people inside. It won't bring you fame or fortune, just the satisfaction of helping someone in need.

STILL INTERESTED? We offer a SAR Boot Camp that will provide you with the knowledge, skills, and abilities to become a competent and confident search technician. No push-ups or sit-ups, and we really don't care how you make your bed, but we can help develop skills that you may also find useful in your other outdoor activities.

Our 2017 Boot Camp begins March 18!

Participants will meet on the third Saturday of each month, March through September, and will take the NASAR SARTech II Certification Exam on October 21 & 22.
